PROFILE

I am a passionate individual with a dedication to exploring the vast opportunities in the tech industry, particularly in web development. I am eager to gain real job experience and grow through continuous self-improvement. As I am approaching the end of my university days, in the final year of my Bachelor of Science in Information Technology program, I have built a solid foundation in coding. I have experience working with various frameworks in frontend, backend, and full-stack development. Furthermore, I have also acquired skills in UI/UX design and received technical administrative training.
